

SAFESMART ACCESS PROVIDES END-TO-END SOLUTIONS FOR HEIGHT ACCESS CHALLENGES ACROSS THE GLOBE.

Since 2007, SafeSmart Access has been providing height access solutions globally.

With a world-wide distribution network, we cater for the construction, defence, mining, aviation, transport, and pipeline industries around the globe.

We have substantial experience with delivering projects all over the world including Europe, UK, Americas & APAC. This includes experience across entire building project phases from demolition to finishes.

Utilising our expertise, we are able to provide concept designs, methodologies and applications to all facets of construction and engineering.

THE SAFESMART SECRET

We have the resources and support staff to ensure we are at the forefront of every development in the demanding world of height access.

From our in-house design team to our production and independent certification procedures, our can-do attitude allows us to work closely with you to solve your needs and streamline your own workplace efficiency.

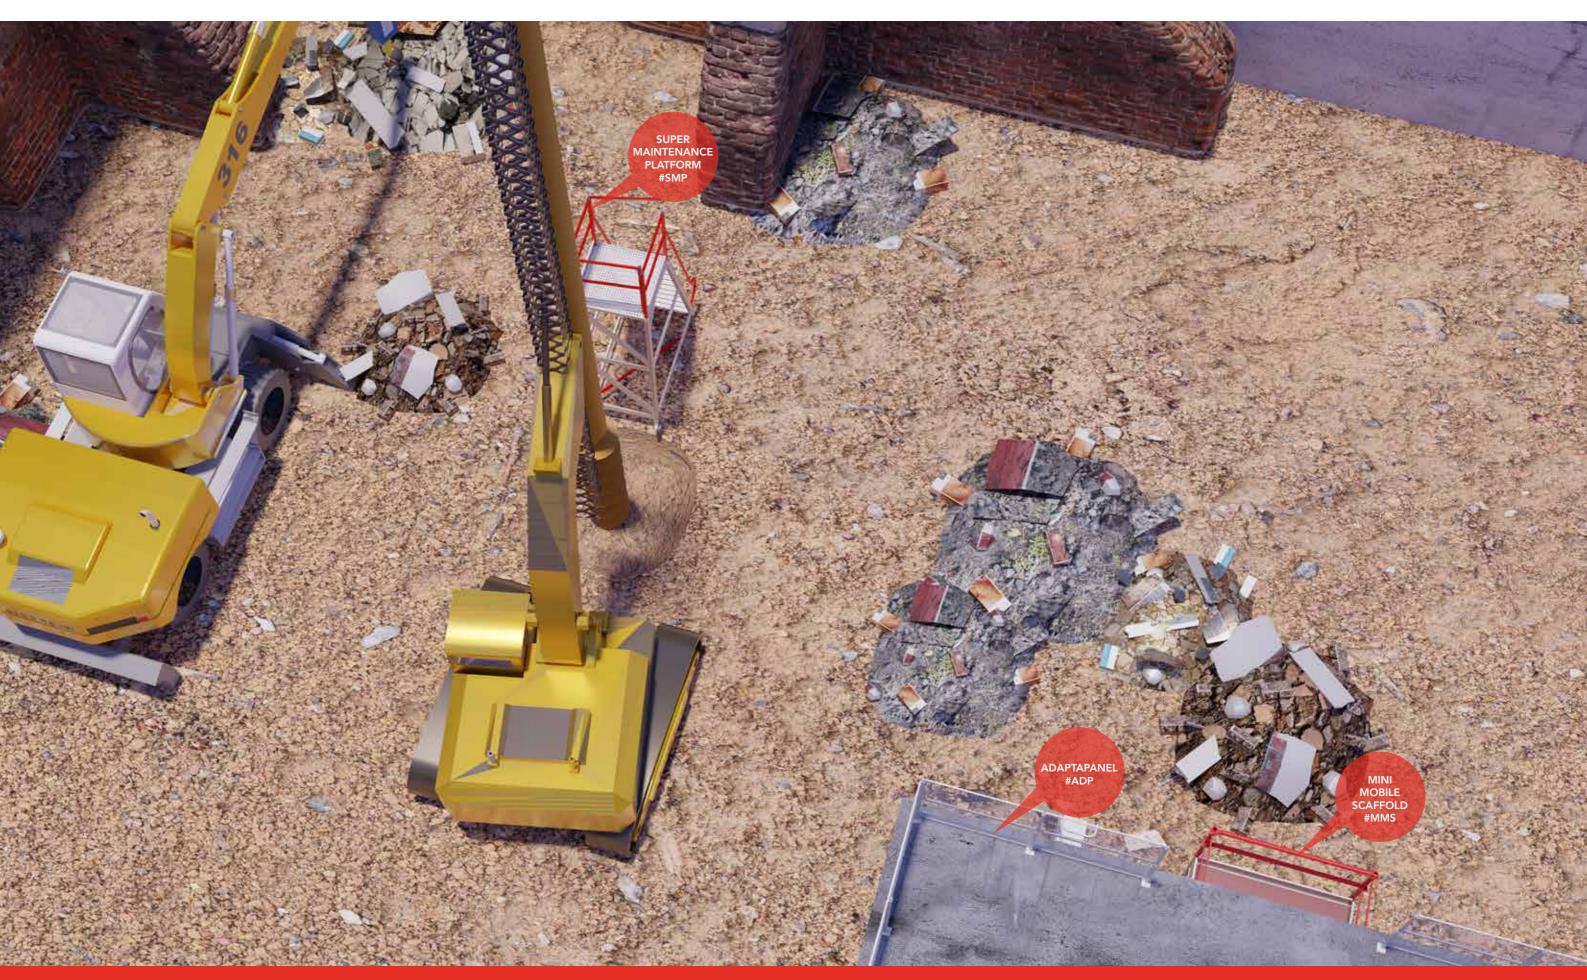

GLOSSARY OF TERMS

HASHTAG	PRODUCT CATEGORY
#ADS	ADAPTASPAN
#ADP	ADAPTAPANEL
#AJS	ADJUSTASTAIRS
#APL	ALUMINIUM PLATFORM LADDER
#ASL	ALUMINIUM STRAIGHT LADDER
#BLX	CONQUIP BULKX SYSTEM
#BWP	BALCONY WORK PLATFORM
#CCB	CROWD CONTROL BARRIER
#CCK	CONQUIP CONCRETE COLUMN KIBBLE
#CMP	CANTILEVER MAINTENANCE PLATFORM
#ERP	EASYRAISE PLATFORM
#FPL	FIBREGLASS PLATFORM LADDER
#FSB	FORMWORK STEPOVER BRIDGE
#HUS	HUSHTEC ACOUSTIC ATTENUATION
#MMS	MINI MOBILE SCAFFOLD
#MSO	MODULAR STEPOVER
#PSF	PROSCAF
#PST	PROFESSIONAL SERIES SCAFFOLD TOWER
#SLR	SAFELOADER
#SMP	SUPER MAINTENANCE PLATFORM
#STS	SMARTSTAIRS
#TEP	TRUCK EDGE PROTECTION PANEL

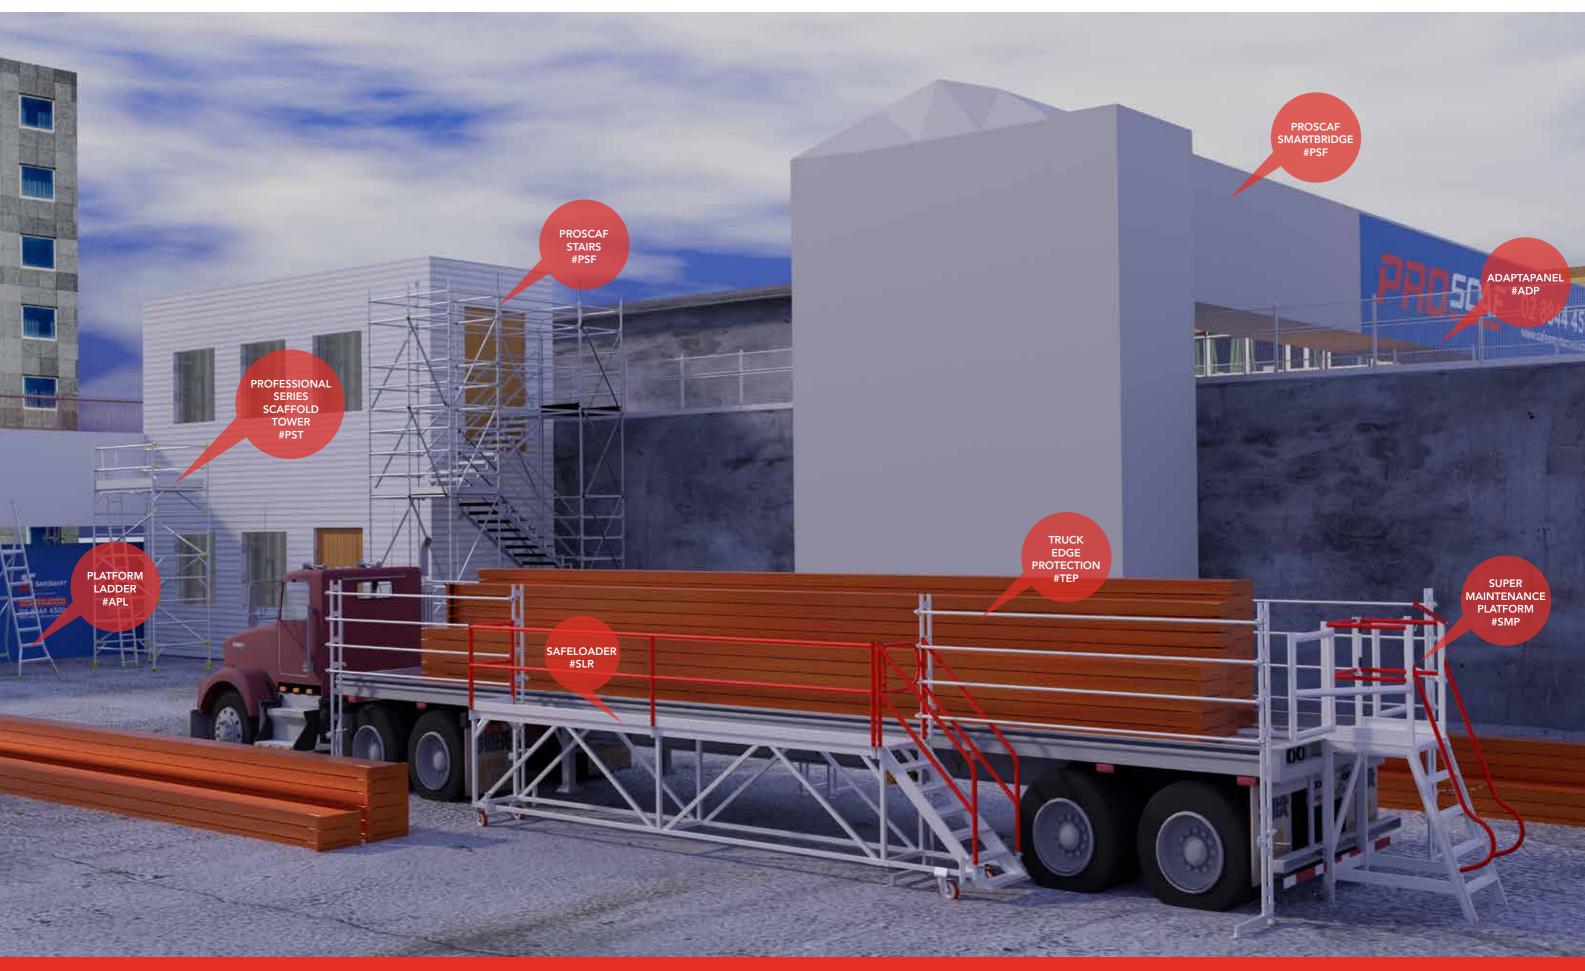

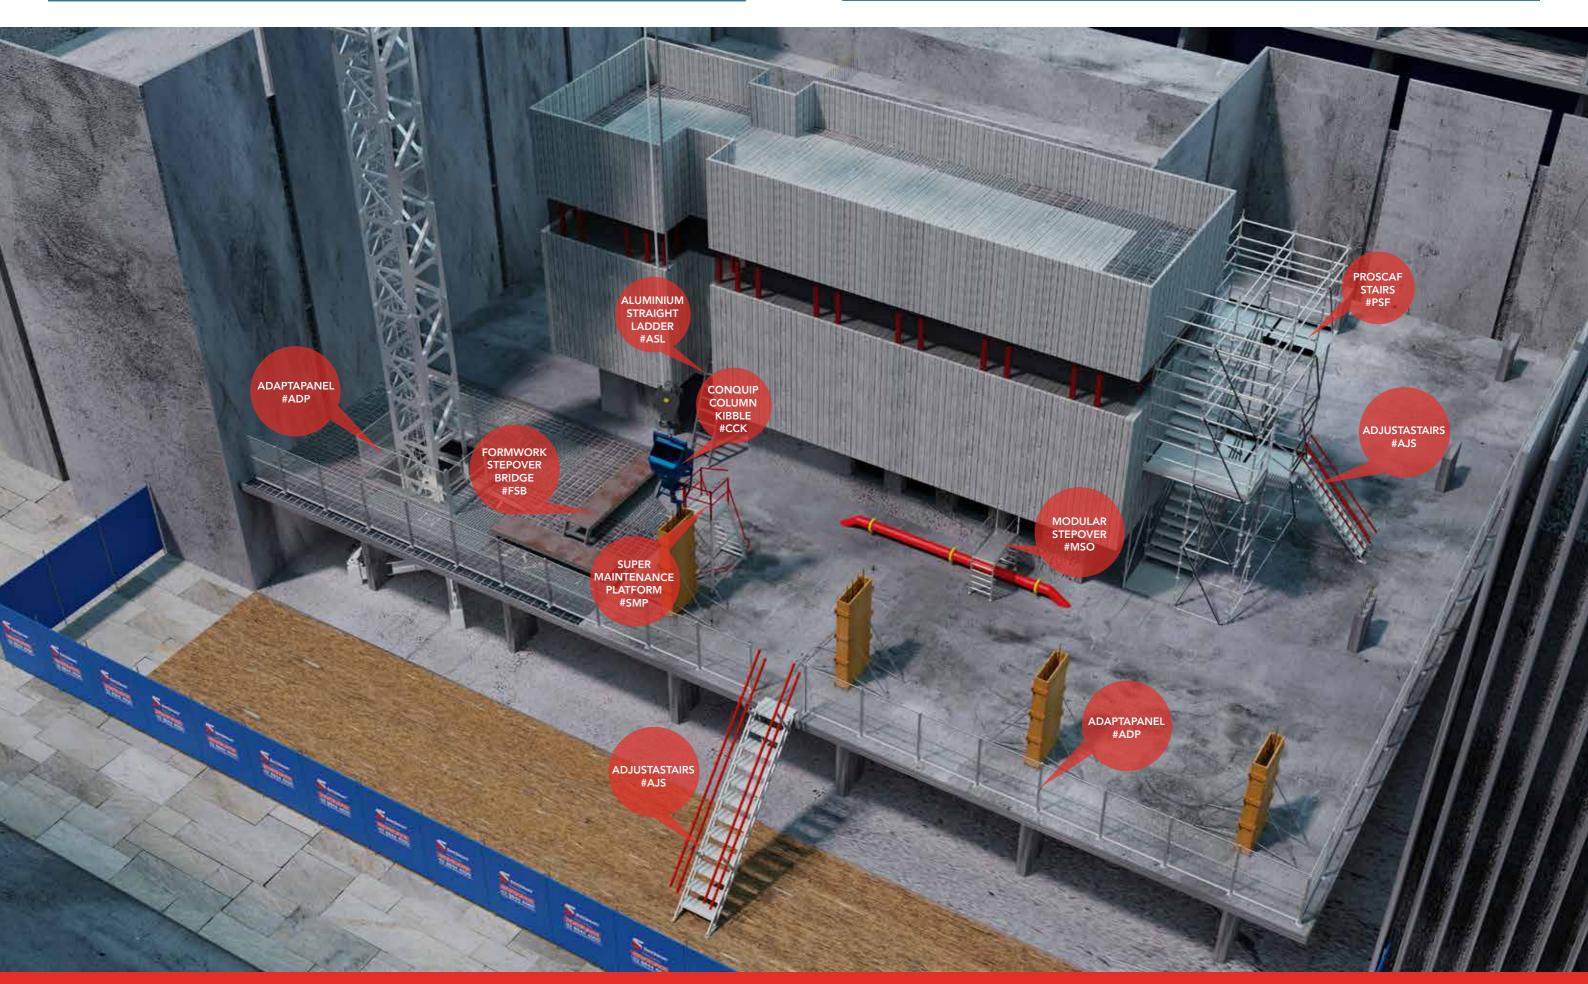

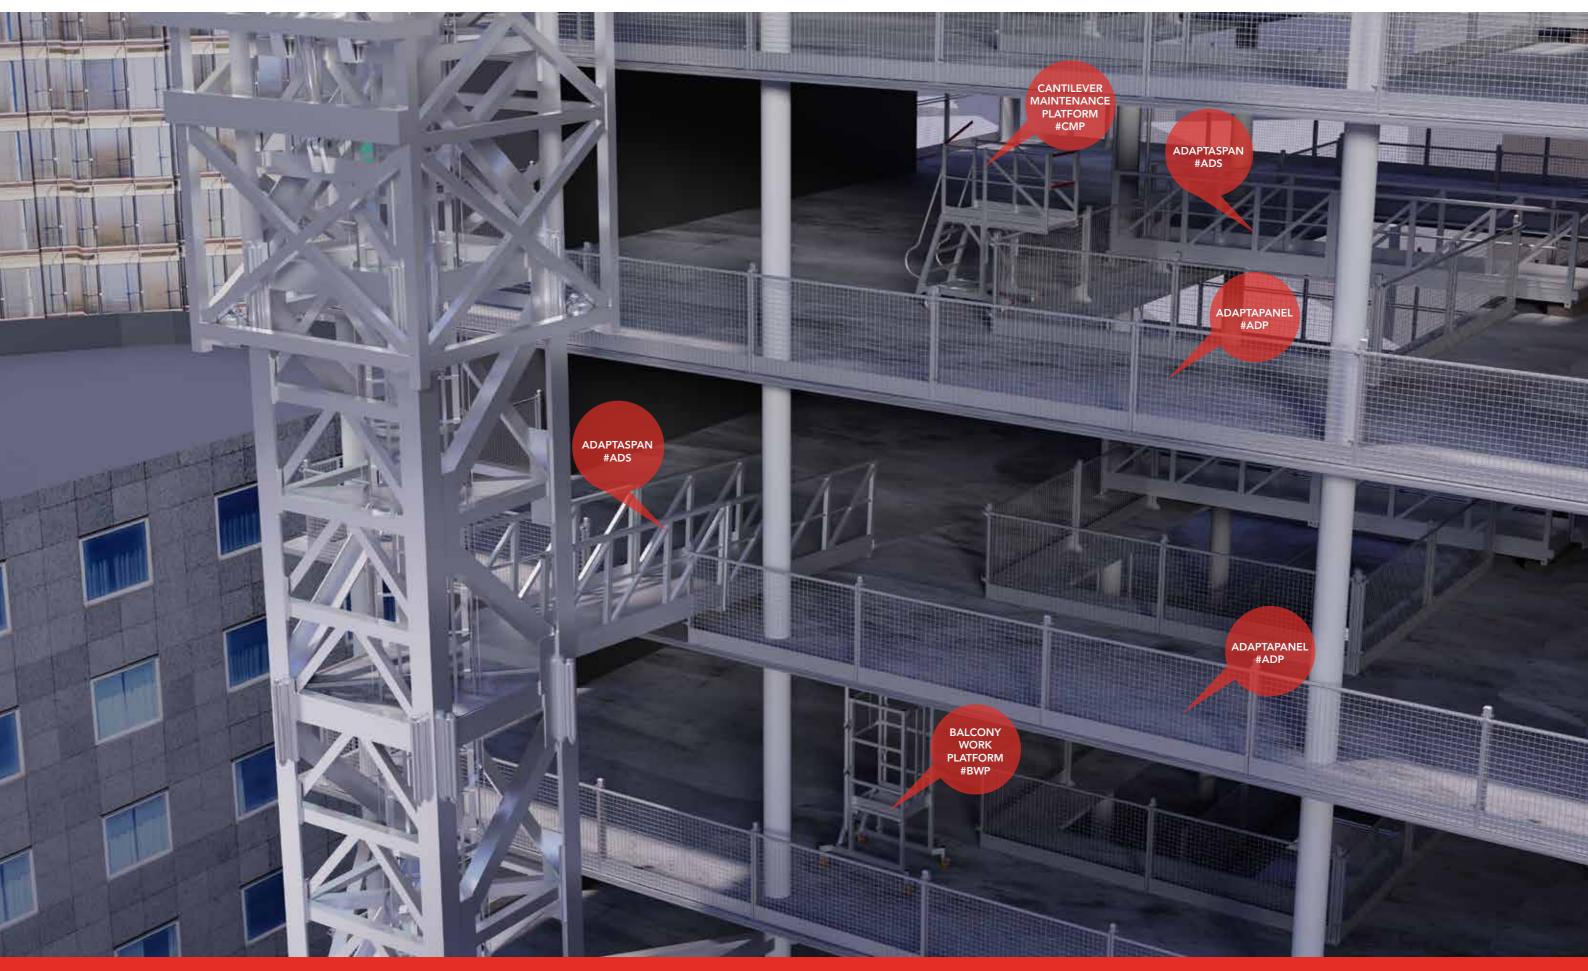

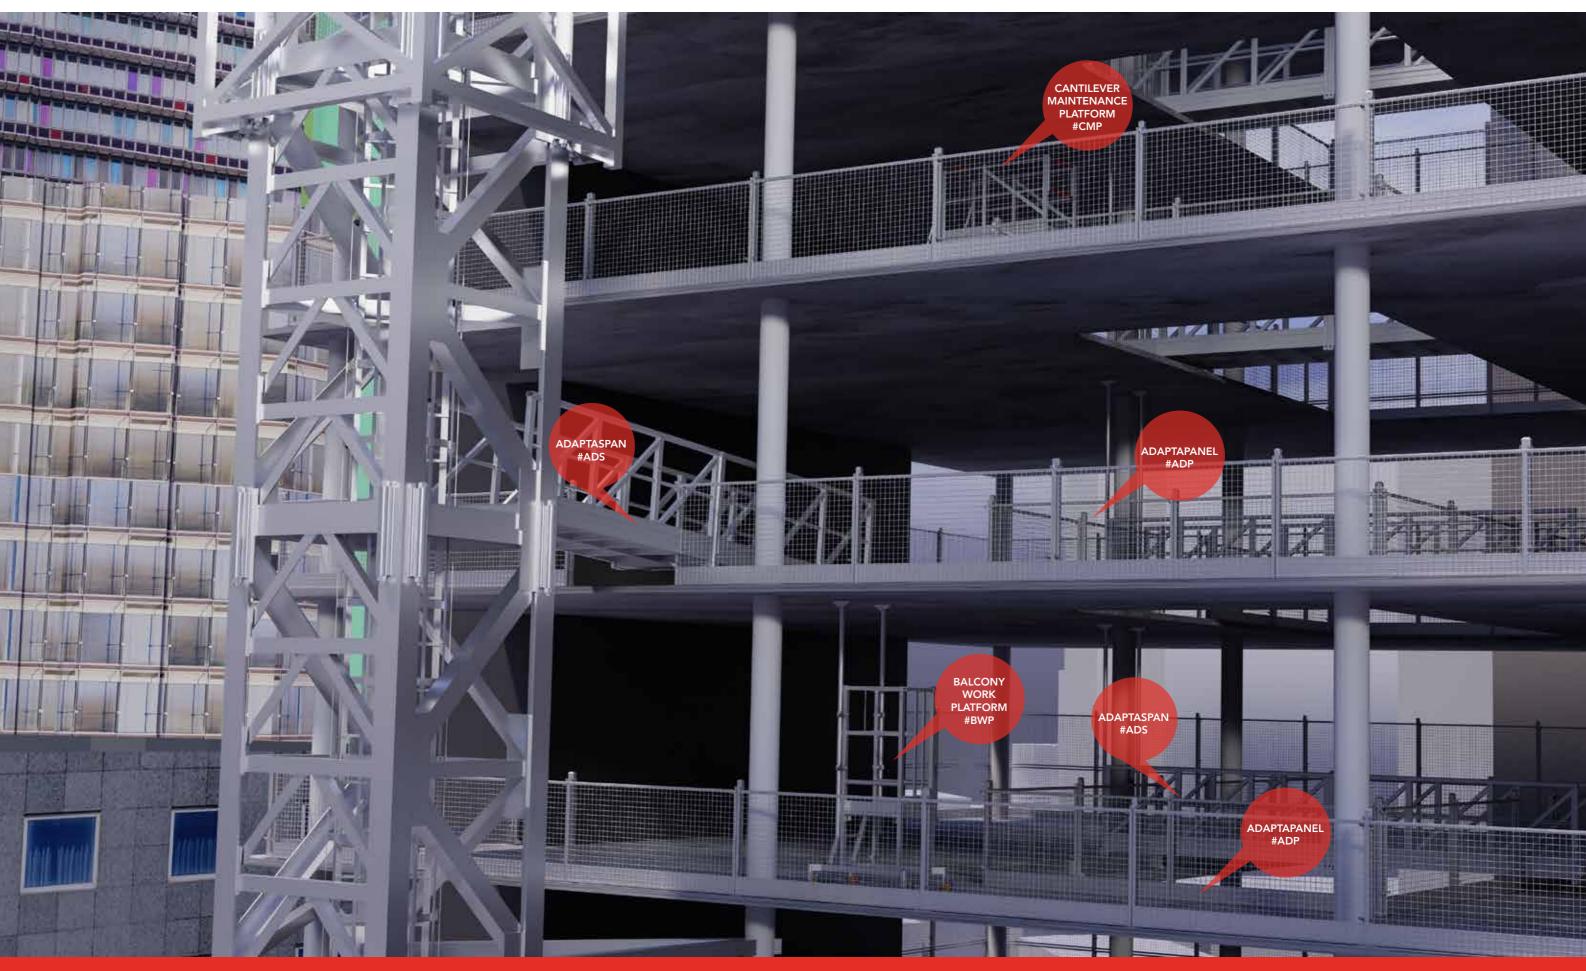

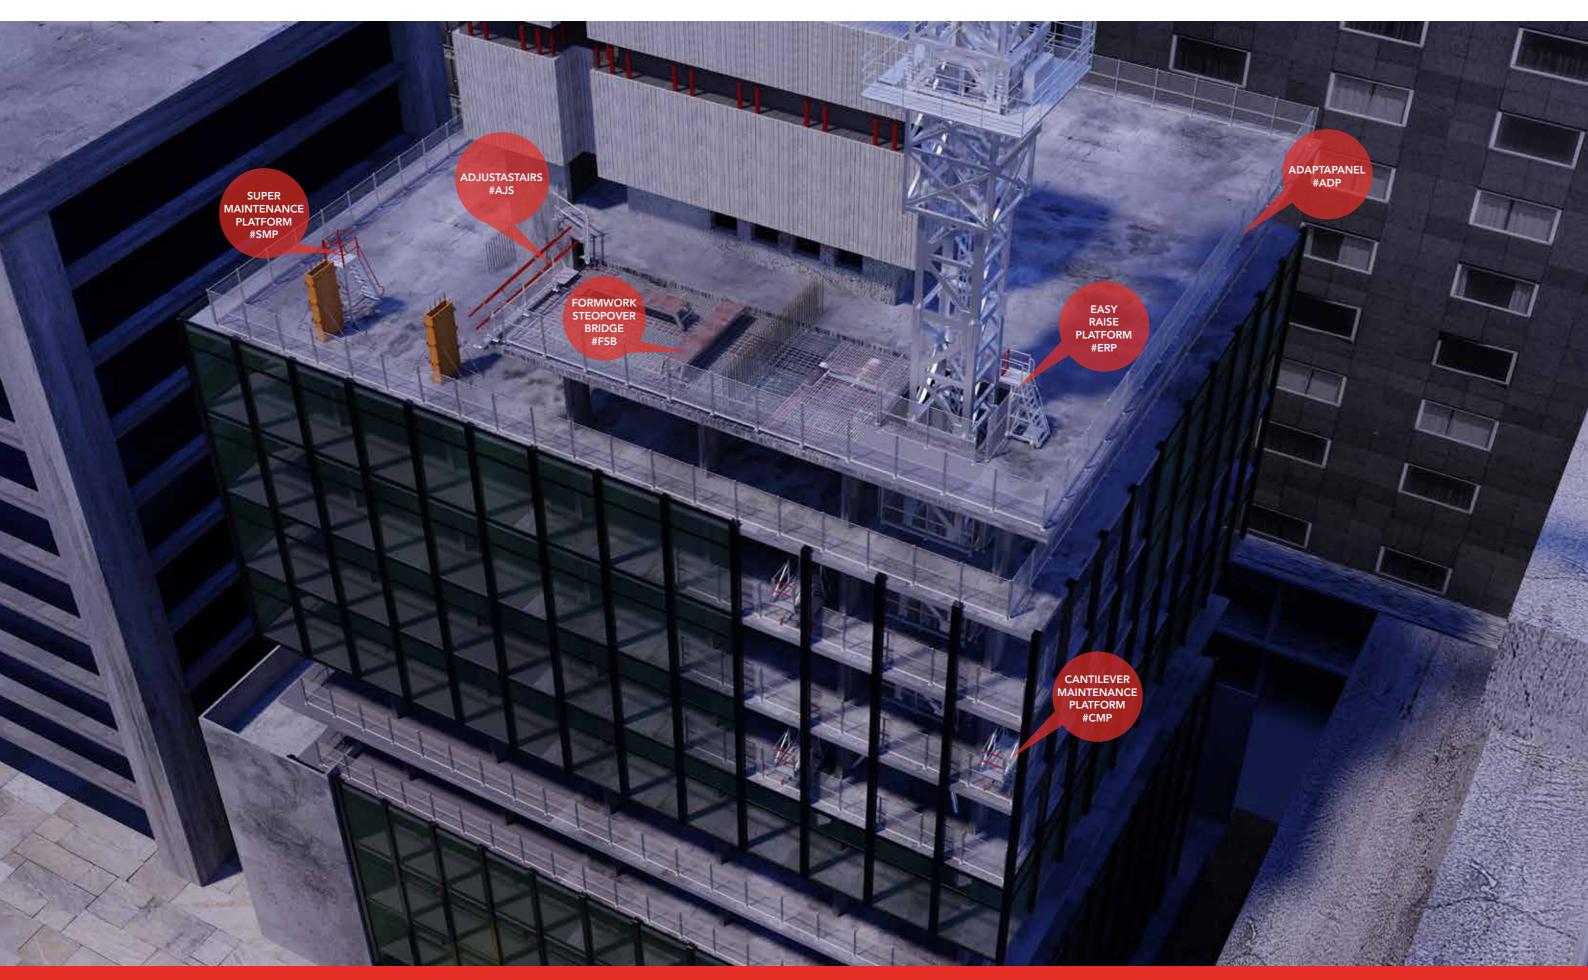

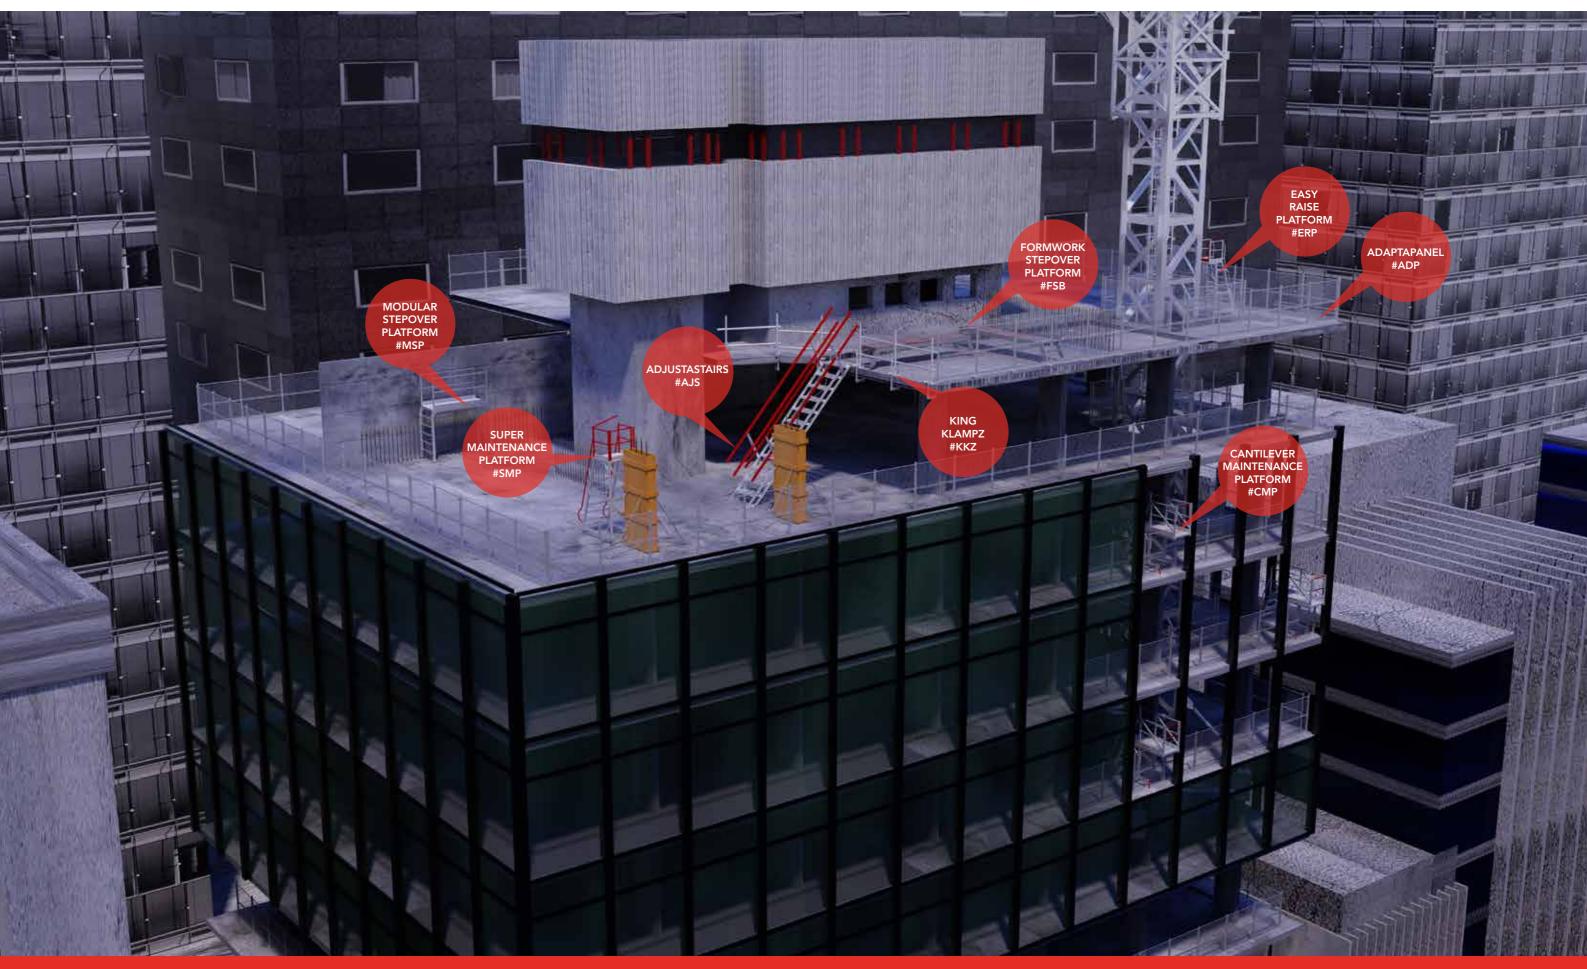

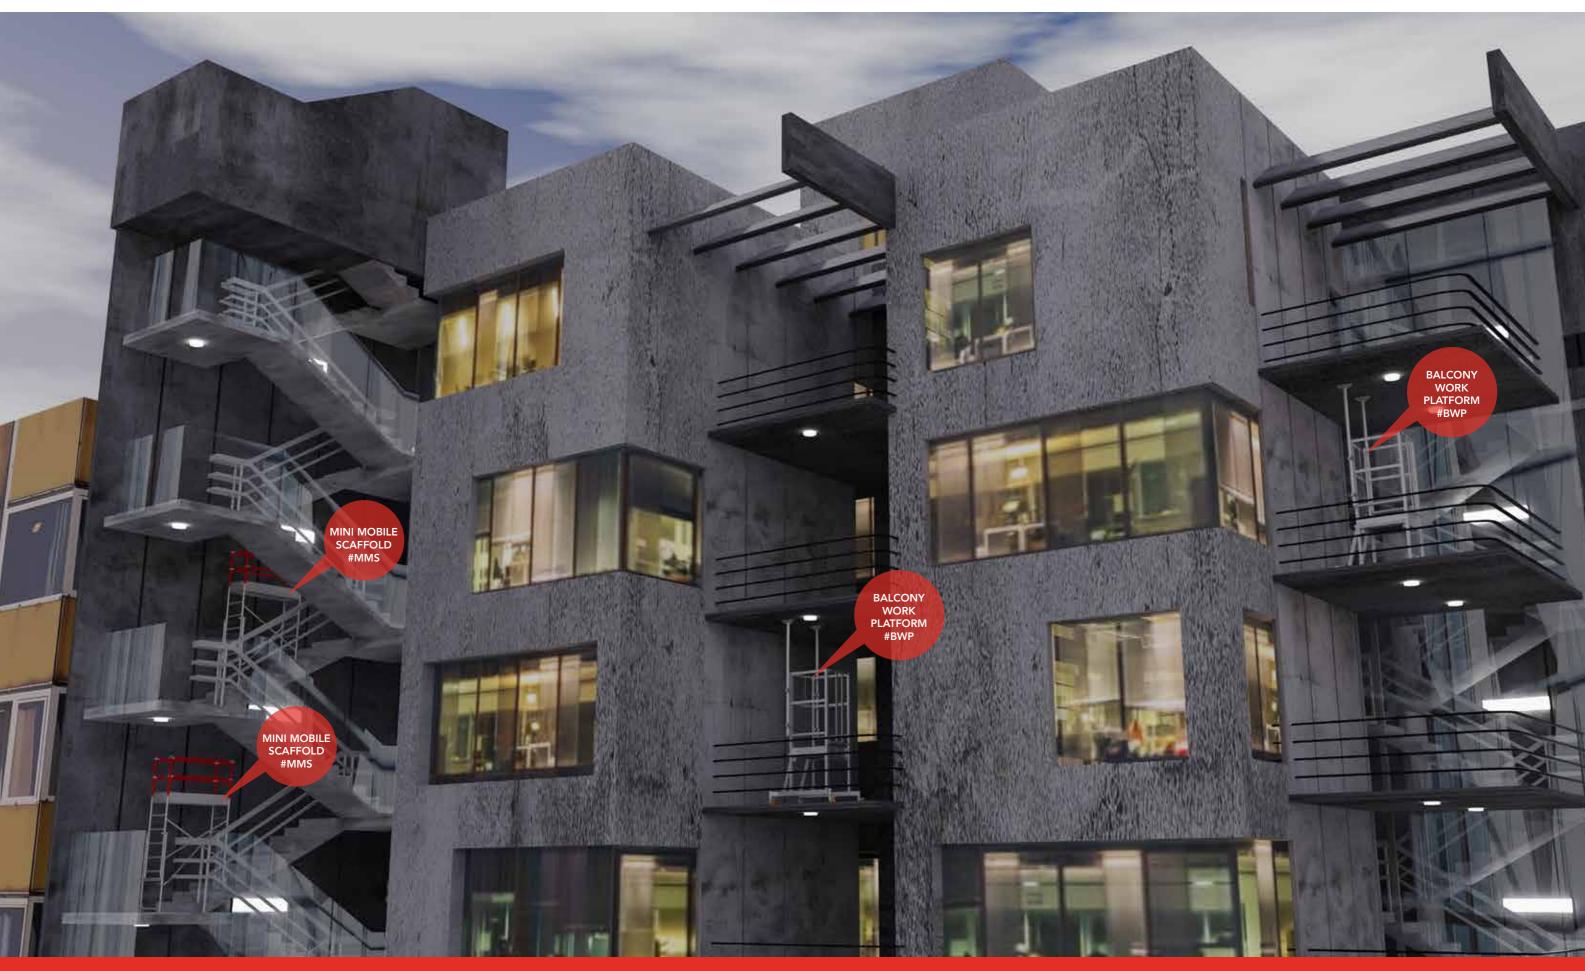

PRODUCT LIST

PRODUCT LIST

	MO	BILE WORK PLATFORMS
#BWP	220124	Single length Balcony Work Platform includes 1 x 210127 Adjustable Podium Platform + 2 x 220123 Ceiling Props
#BWP	220125	Double length Balcony Work Platform includes 1 x 210124 Adjustable Podium Platform + 2 x 220123 Ceiling Props
#CMP	210240	Cantilever Maintenance Platform 565mm - 2 Step
#CMP	210241	Cantilever Maintenance Platform 850mm - 3 Step
#CMP	210242	Cantilever Maintenance Platform 1130mm - 4 Step
#CMP	210243	Cantilever Maintenance Platform 1400mm - 5 Step
#CMP	210244	Cantilever Maintenance Platform 1700mm - 6 Step
#CMP	210245	Cantilever Maintenance Platform 1970mm - 7 Step
#CMP	210246	Cantilever Maintenance Platform 2250mm - 8 Step
#CMP	210247	Cantilever Maintenance Platform 2540mm - 9 Step
#CMP	210248	Cantilever Maintenance Platform 2828mm - 10 Step
#CMP	210249	Cantilever Maintenance Platform 3100mm - 11 Step
#CMP	210108	Cantilever Maintenance Platform 3300mm - 12 Step
#CMP	210109	Cantilever Maintenance Platform 3600mm - 13 Step
#CMP	210110	Cantilever Maintenance Platform 3950mm - 14 Step
#ERP	210371	EasyRaise 4 Step Platform 1.2 - 2.4m
#ERP	210370	EasyRaise 5 Step Platform 1.4 - 2.8m
#ERP	210372	EasyRaise 7 Step Platform 1.9 - 3.8m
#ERP	210103	EasyRaise Platform Retrofit Forklift Channel Set of 2
#SLR	210808	SafeLoader - 0.7mW x 1.4mH x 2.0mL Platform, Stairs one end
#SLR	210784	SafeLoader - 0.7mW x 1.4mH x 4.0mL Platform, Stairs one end
#SLR	210785	SafeLoader - 0.7mW x 1.4mH x 6.0mL Platform, Stairs one end
#SLR	210198	SafeLoader - Solid Rubber 4 x 260mm Castor & 4x Wind Down Jacks Upgrade Set
#SLR	210697	SafeLoader - Retrofit Fork Sleeves Channel Set of 2
#SMP	210183	Super Maintenance Platform 565mm - 2 Step
#SMP	210184	Super Maintenance Platform 850mm - 3 Step

#BLX	DIRECT TO TRUCK SYSTEM	A BULK WASTE BIN THAT DISCHARGES DIRECTLY INTO A SPOIL TRUCK FOR RAPID BULK EXCAVATION. Load, lift and discharge directly into the back of a truck for fast spoil removal. The skip discharges the spoil when the 'feet' are landed directly on the sides of the truck. Available in a variety of sizes to suit your project. Truck loading can be done within site boundary or on the roadside if approval is granted from local authorities.
#BLX	BULKX FIXED STANDING GANTRY SYSTEM	COMPACT CONFIGURATION OFTEN USED IN CITIES TO MINIMISE TRAFFIC RESTRICTIONS. Bolt down frame creates a discharge location. Often used in a concrete muck bay for projects with 24/7 excavation, where spoil removal trucks are not operating during the night.

CASE STUDY

INDUSTRY STORY:

Public Access Bridge - Proscaf

The Challenge

A private school based in Sydney's Eastern Suburbs required an engineered structure to facilitate the safe passage of students up and over an internal site road, whilst construction works were in progress. Rohrig Constructions, the principal contractor on site, contacted SafeSmart Access to coordinate the design and delivery of a suitable solution. SafeSmart, in conjunction with delivery partner Just Tube Scaffolding, Rohrig, and the school, prepared a design for public access stairs in conjunction with a 12mL span, 4.5m high bridge using the Proscaf system.

The Solution

The design included the public-compliant stairs and bridge that were 2.0mW with a special duty rating of 5kPa. The structure was also designed to Australian Standards and the stringent requirements for public access. Additionally, the stairs and bridge had two requirements:

- 1. To be in position for a long period of time (potentially 2+ years)
- 2. To be clad with a suitably aesthetic and weather-proof lining to fit the specifications of the school.

The Proscaf load bearing braces were crucial in achieving the bridge span of 12m. The Proscaf ProClad hoarding system was also supplied in conjunction with the Proscaf System to achieve the striking aesthetics of the finish.

Upon installation, the client was impressed with the finished structure.

The Result

Upon installation, the client was impressed with the finished structure.

Just Tube's Director, Sam Bury, commented on Proscaf's capability:

"The bridge demonstrated some of Proscaf's best qualities," said Sam, "The Proscaf System is the best scaffold in the market by far. The team were also impressed with ProClad – having utilised it for the first time on this project."

SYDNEY METRO

INCREASING EFFICIENCY OF TUNNELLING MUCK AWAY ON AUSTRALIA'S LARGEST PUBLIC TRANSPORT PROJECT

Sydney Metro was Australia's biggest public transport project. The main challenges of this infrastructure project were the site location and the confined operating space. As a result, JHCPBG needed to maximise available space on the site of the future Crows

Conquip contacted JHCPBG during the tender phase and proposed the BulkX system which provides directto-truck spoil discharge. We could see the cost and site efficiency advantages from not stockpiling spoil on site.

Our design team partnered with the JHCPBG project team to come up with a best practice excavation solution. We considered vehicle movements, truck capacities and available space around the shaft opening.

We agreed on a solution which was a BulkX freestanding gantry system with an 8m³ and a 13m³ BulkX skip. The 8m³ skip was used for loading the truck while the 13m³ one was used for loading the dog trailer. Using the two gantry cranes within the excavation's acoustic enclosure, the truck and the dog could be loaded almost simultaneously. This enabled JHCPBG to have a full truck leaving site at least every 10 minutes, equating to approximately 50 trucks loaded each day.

> **CONTRACTOR** John Holland CPB Ghella

LOCATION Crows Nest Station, Sydney

"We chose the BulkX for our spoil load out operations because it could load directly into trucks. This improved our site logistics by eliminating the stockpile from our yard. We worked closely with Conquip to size the bins to match our truck combinations, optimise the discharge frame configuration and model the cycle times.

> Gene O'Sullivan, Project Manager John Holland CPB Ghella
